**Subject:** [Cag-all-offices] CoRE portal- Draft Guidance note on use of GIS and Remote Sensing

Dear all,

A comprehensive guidance note on use of GIS and Remote Sensing has been uploaded in CoRE for your comments. The Guidance note is divided in two parts: Part 1 and Part 2. Part 1 explains the potential of the technology across various areas and its use in enhancing both audit planning and evidence, while Part 2 is a detailed note that will be of use to the practitioners. This guidance note has been prepared with broad participation from representatives/resources sourced from CDMA, ICED, O/o DGASD and audit offices that have used this technology in audits, expert inputs that were available in these field offices and case studies submitted by us internationally.

The draft guidance note will be available for your comments until 15 December 2019.

Best Wishes,  
Vidhu Sood  
Principal Director (PPG)
